

Changes 2/10/13

- Quick start ~~choose~~ on default dictionary ; Preferences
- 3 ways to finish the game
 - time up
 - cancel the game
 - all words found
- (If I want 30 words when 30 found → finished even if there are more words.)
- generate board, put in as many words as u can, tell the user how many words are in there.
- Show statistics organizer → show stat last board
→ show board with highest
- Send games directly ^{score} to the app
(notified in app → accept) (server!)
(not email!)
not accept → update in graph if friend has a role (accept)
block
- block an email address

- play a game many times but ~~at~~ a specified number of times (7)
- ~~at~~ → best of 7
- friend: only edit name not email
- Shared games remain (save shared games)
- Warning when deleting dictionary if ~~a~~ ^{some} boards uses it.
- if I receive a game (dict and board) I can not modify the dict. (but import words from it into another dict!)
- When sharing a game with a friend I want to be updated with his scores (→ server!)
- no emails!
- 6x6 board
